Resident  
Address

**Re: Permission to Survey Proposed Drainage Improvements  
along Highland Creek**

Dear Resident:

The City of Carrollton, along with Brittain and Crawford Surveying and Mapping Company will be performing topographic surveys along Highland Creek for the purpose of improving the creek. The topographic surveys will be necessary to determine the actual field location of property corners in or near the proposed route of the improvements. The survey may also determine the location of fences, houses, mailboxes, trees, power poles, utility lines, etc. near the proposed project. The survey will help us to locate the proposed improvements thus minimizing the impact on the property and property owners.

Surveyors will attempt to notify you prior to entering your property. There may be a need to trim underbrush and small trees on your property (within the creek area only) to accomplish the required survey.

Your signature below granting permission for the topographic survey on your property is appreciated. Two copies are enclosed; one should be signed and returned June 8 or returned in the stamped, pre-addressed envelope; the other copy is for your records.

If you have any questions, please contact me at 214/920-2500.

Sincerely,  
**Freese and Nichols, Inc.**

Tricia Hatley, P.E.  
Project Manager

---

I, \_\_\_\_\_, Owner of Lot \_\_\_\_, Block \_\_\_\_, Highlands of Carrollton #\_\_\_, hereby grant permission for Freese and Nichols and Brittain & Crawford Surveying and Mapping Company to perform a topographic survey on this property for the purpose of preparing engineering plans related to the design of drainage improvements along Highland Creek.
