

Follow-Up Input Regarding the Draft Dallas iSWM Plan

September 18, 2009

City of Dallas staff and its consultant, Freese and Nichols, Inc., (FNI) met with the development community on Monday, September 14, 2009 at 1:30 PM in Dallas City Hall. The meeting resulted in two action items:

1. FNI will update the draft questionnaire per the recommended revisions at the meeting. FNI will send the revised draft questionnaire to the email distribution list and post it online on Friday, September 18.
2. The development community will provide feedback on the following:
 - a. What alternatives approaches to iSWM would you propose?
 - b. Provide comments about the phased implementation of iSWM storm water criteria.
 - c. Provide comments regarding the point system.
 - d. How should the data collected be analyzed and presented to City Council?

The City of Dallas staff will meet with the development community during the week of October 12. The date, time and location will be confirmed and communicated in advance of the meeting. Please submit your responses and comments to the Dallas iSWM web site at <http://clients.freese.com/dallas/iswm/> by 5 PM on Friday, October 2, 2009.
